PURPOSE STATEMENT
This symposium has been planned to offer the practicing pediatrician an opportunity to learn about recent advances and state-of-the-art diagnoses and therapy for common problems encountered in daily practice. At the completion of this symposium, pediatricians and other pediatric health care professionals will have enhanced their skills and competence in patient care, medical knowledge, interpersonal and communication skills and systems-based practice.

TARGET AUDIENCE
The program is designed for pediatricians, primary care physicians and other interested pediatric health care professionals.

LEARNING OBJECTIVES
At the completion of this symposium the participants should be able to:

- Identify the latest outbreaks of mosquito borne diseases and how to diagnose them, and address the potential for spread in the US mainland
- Review the association of Zika virus infection with microcephaly in babies
- Identify when to suspect FPIES in an infant with gastrointestinal symptoms, describe management strategies and identify the most common food triggers
- Describe recent research that links the developing intestinal microbiome to preterm delivery, neonatal morbidities and metabolic problems in adulthood and analyze newly developing knowledge of how the developing microbiota interact with the host
- Discuss how to use technology in dermatologic diagnoses
- Define and differentiate developmental screening, surveillance, and evaluation
- Describe the processes that underlie problems in development, and identify patterns of developmental delay
- Recognize common non-epileptic paroxysmal spells and their treatments
- Identify when to suspect and refer patients for EOE, understand its diagnosis, and differentiate the efficacy of various dietary and medical therapies
- Analyze the need for special formulas depending on special infant circumstance, describe the composition of these special formulas, and clarify the evidence for the use of non-lactose containing formulas, soy formulas, products with additives such as DHA
- Recognize the Female Athlete Triad/RED-S and understand concussion management for the female athlete
- Review the epidemiology and clinical impact of genital HPV infections and apply present HPV vaccine recommendations
- Assess new insights into pathophysiology and how they affect management of atopic dermatitis
- Formulate a differential diagnosis for the presenting complaints of inattention, impulsivity, and hyperactivity, recognize ADHD within the spectrum of developmental-behavioral disorders, and diagnose associated co-morbid conditions
- Recognize which children are at risk of nutritional deficiency and the associated skin manifestations
- Summarize various gastrointestinal diseases and review the efficacy of dietary restriction therapies for these diseases
- Recognize and manage common anxiety disorders and review evidence-based treatments and guidelines for referral
- Apply evidence-based guidelines for preventative and treatment modalities in the newborn nursery for the management of GBS, Herpes and Sepsis and review the controversies
- Recognize autism spectrum disorders (ASD) within the spectrum and continuum of developmental-behavioral disorders, and describe the developmental and behavioral profiles of children with ASD
- Integrate newer and/or changed recommendations from the AAP Red Book and understand the process for AAP updates

ACCREDITATION
Memorial Healthcare System is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT
Memorial Healthcare System designates this live activity for a maximum of 13.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nova Southeastern University College of Medicine is an accredited provider for awarding credit hours for the American Osteopathic Association. This activity has been approved for a maximum of 13.0 credits of AOA Category 2-A.

Memorial Healthcare System is an approved provider of Nursing and Respiratory Therapy Continuing Education, CE Broker Provider # 50-1317. Contact hours will be awarded based on attendance on one or both days (maximum 13.0 hours).

DISCLOSURE
In accordance with the Standards for Commercial Support issued by the Accreditation Council for Continuing Medical Education (ACCME), Memorial Healthcare System resolves all conflicts of interest to ensure CME activities are free of commercial bias. Disclosures will be published in the syllabus.
the Hotel Reservation Clerk during check-in of Registrants who are staying at the hotel should notify http://tinyurl.com/Peds2016 your reservation online: GJDJ28. You may also make you may contact the hotel directly at (954) 602-6000 contact the reservation desk at 1-855-689-2911 or Drive, Hollywood, Florida. To make your reservations plus tax per night single/double has been reserved at $263.00 at http://www.diplomatresort.com directly with the hotel; learn more about the Diplomat

ACCOMMODATIONS/AIR TRANSPORTATION The Diplomat Resort is ideally situated on the Atlantic Ocean in Hollywood and is easily accessible from the Hollywood/Fort Lauderdale International Airport (closest) or Miami International Airport (more distant). Registrants should make their reservations directly with the hotel; learn more about the Diplomat at http://www.diplomatresort.com

HOTEL ACCOMMODATIONS A block of standard rooms at a group rate of $263.00 plus tax per night single/double has been reserved at the Diplomat Resort (beach location), 3555 S. Ocean Drive, Hollywood, Florida. To make your reservations contact the reservation desk at 1-855-689-2911 or you may contact the hotel directly at (954) 602-6000 – GROUP CODE is GJDJ28. You may also make your reservation online: http://tinyurl.com/Peds2016

Registrants who are staying at the hotel should notify the Hotel Reservation Clerk during check-in of any changes to their stay at check-in so as to avoid early check out penalties.
